

Executive Summary

Meridian Program Year 2016 Action Plan

As an Entitlement Community, the City of Meridian receives CDBG funds each year from the U.S. Department of Housing and Urban Development. Program Year 2016 (PY2016) funding for the City of Meridian is anticipated in the amount of \$356,324. Funds will be used to address priorities within the HUD performance measurement system to: (1) create a suitable living environment and (2) provide decent housing.

During the PY2016, Meridian intends to focus on investing in public facility projects located in LMI neighborhoods with a direct benefit to LMI residents. Meridian will also invest CDBG funds in public services to benefit LMI persons and to advance a suitable living environment. In addition to these public facilities and public services, Meridian will also designate Non-Administrative funds to assist in providing decent housing to LMI homebuyers.
