
MEMORANDUM

May 31, 2019

To: Building Contractors Association of Southwest Idaho

From: Brent Bjornson - Building Official
Kevin Pitt - Building Inspection Supervisor

Topic: **Residential Structural Footings, Stem Walls, Foundation Walls**

Meridian Building Services Division has implemented an “AM/PM” residential footing inspection which is effective immediately. It is critical that AM/PM requests are stated in the additional notes section of the Accela Citizen Portal when scheduling the inspection.

- All “AM” inspections will occur BEFORE 12 noon.
- All “PM” inspections will occur AFTER 12 noon.

**** specific inspection times are not allowed, and will not be performed ****

Reminder:

If all forms, rebar, and other code requirements are not in place and/or the work is not complete it will result in a failed inspection and re-inspection fee. If footings are poured without a passed inspection they will be required to be removed and a re-inspection fee will be applied to the permit.
