<b>Owner (Private):</b>	<b>Phone:</b>	
<b>Contractor:</b> CUSTOM HOME SOLUTIONS LLC 480 E FRANKLIN RD #108      MERIDIAN, ID 83642      2088887561		

**Project Description:** Shower: Construction includes the removal of the existing fiberglass tub/shower and the install of a 60x42" Bestbath accessible shower. Existing drywall will be cutout to expose the flanges of the old fiberglass unit. After unscrewing the unit from the flanges, it will be cut into smaller pieces and removed from the home. Additional drywall will then be removed to a point just beyond the flanges of the new shower to ready the pocket for the install of the new shower. At this point the drain will be relocated and converted to 2" ABS/PVC and the shower valve will be relocated to the opposite side wall. A new Moen mixing valve and transfer valve will be installed in the wall, to divert between the hand shower and the fixed shower head. Contractors to consult with customer about plumbing locations. The 60x42 Bestbath shower will be installed with the eight-inch tile pastern and 3 molded in soap ledges. Shower accessories include an 18" wall mount teal seat and a color matching flange trim kit.

**Paint:** After the shower is fully attached to the framing of the home, the door to the shower room will be widened to it maximum size based on the depth of the shower and flange trim kit. In doing so, the electrical switches will need to be relocated to the outside wall adjacent to the space created from removing the door trim. Drywall texture and touchup paint will need to be done where necessary around the door opening. Paint is to be supplied by the customer.

**Flooring:** New LVP flooring with be installed in the bathroom with a transition strip to match up to the carpet in the bedroom.
