PLAYING FORMAT

- * The first **10** players physically present will start the first game on any court. A second court will start when there is enough players.
 - * Players may **CHOOSE** the court they wish to play on by sitting at the bleachers on that court.
 - * Players and/or teams must dedicate themselves to one particular court and **CANNOT** stand between courts in an attempt to get on the first open court.
 - * If a player and/or team chooses to **switch** to a new court, they go to the **back of the queue** and must allow other players and/or teams who are waiting for that court priority to play first.
 - * If there are insufficient players to continue playing on a court, the last winning team from that court is given priority and gets the next available game **no matter how long other players/teams have been waiting**.
