4:25	<b>Kendall Nagy, Director:</b> Rx Takeback Results	Melinda Smyser: ODP Rx Takeback Toolkit created, goal for the event every year is to increase partnerships. This year we had 44 different partnerships and collected 10k+ pounds of medications. Additional community partners reached out and requested to participate in future takebacks. Law enforcement must be on site for the event. MPD will assign staff to allow us to hold more than one event in the Spring. Kendall: the takeback held at Republic Services had 147 cars drive through and we took back 382 pounds of medication. Sharps containers and overdose rescue kits were also available. Volunteers administered quick 6 question surveys to each car which indicated people are still learning about the event and permanent drop off locations. The survey also showed many community members are holding onto their meds and others are safely disposing them. According to the survey the majority of event participants learned about the event through Nextdoor and Peachjar. Social media platforms were also used to promote the event. Republic Services helped promote the event by sending out a quarterly newsletter in Meridian utility bills.
