Mixed Use Regional (MU-R)

Future Land Use Map Designation Cut Sheet

[Diagram with labels: Office or Hospitality, Office Park/Headquarters, Local or Collector Road, Arterial Road, Single Family Residential, Retail or Service Use, Residential or Office, Integrated Plaza Area, Retail]

**GENERAL CRITERIA**

**SAMPLE ZONING**
- R-15, R-40, TN-C, C-G, and M-E

**DESCRIPTION**

The purpose of this designation is to provide a mix of employment, retail, and residential dwellings and public uses near major arterial intersections. The intent is to integrate a variety of uses together, including residential, and to avoid predominantly single use developments such as a regional retail center with only restaurants and other commercial uses. Developments should be anchored by uses that have a regional draw with the appropriate supporting uses. For example, an employment center should have supporting retail uses; a retail center should have supporting residential uses as well as supportive neighborhood and community services. The standards for the MU-R designation provide an incentive for larger public and quasi-public uses where they provide a meaningful and appropriate mix to the development. The developments are encouraged to be designed consistent with the conceptual MU-R plan depicted.

**SAMPLE USES**

Sample uses, appropriate in MU-R areas would include: All MU-N and MU-C categories, entertainment uses, major employment centers, clean industry, and other appropriate regional-serving most uses.

**QUESTIONS?**

Contact the Planning Division at 33 E Broadway Ave, Suite 102, Meridian ID 83642, or 208.884.5533, or https://meridiancity.org/planning/, or planning@meridiancity.org.

### General Criteria

#### Design Direction

- Development should generally comply with the general guidelines for development in all Mixed Use areas.
- Residential uses should comprise a minimum of 10% of the development area at gross densities ranging from 6 to 40 units/acre.
- There is neither a minimum nor maximum imposed on non-retail commercial uses such as office, clean industry, or entertainment uses.
- Retail commercial uses should comprise a maximum of 50% of the development area.

Where the development proposes public and quasi-public uses to support the development, the developer may be eligible for additional area for retail development (beyond the allowed 50%), based on the ratios below:

- For land that is designated for a public use, such as a library or school, the developer is eligible for a 2:1 bonus. That is to say, if there is a one-acre library site planned and dedicated, the project would be eligible for two additional acres of retail development.
- For active open space or passive recreation areas, such as a park, tot-lot, or playfield, the developer is eligible for a 2:1 bonus. That is to say, if the park is 10 acres in area, the site would be eligible for 20 additional acres of retail development.
- For plazas that are integrated into a retail project, the developer would be eligible for a 6:1 bonus. Such plazas should provide a focal point (such as a fountain, statue, and water feature), seating areas, and some weather protection. That would mean that by providing a half-acre plaza, the developer would be eligible for three additional acres of retail development.
