LOBBYING

Organizations that qualify for IRS 501(c)(3) status are not prohibited from lobbying, they are limited on what funds can be used and how much can be spent on lobbying. The IRS recognizes two types of lobbying.

- **Direct Lobbying** is any attempt to influence any legislation through communication with any member or employee of a legislative body, or government official, with the intent to influence legislation if and only if the communication:
  - refers to specific legislation and
  - reflects a view on such legislation.

- **Grassroots Lobbying** includes the addition of indirect attempts to communicate with and influence legislators through constituents if and only if the communication:
  - also includes a call to action directed at the recipient.
