**Bills and Payments**  
Questions & Answers

**Q:** When will I get my bill?

**A:** The City of Meridian has two billing cycles. If you live North of Cherry/Fairview your bill will be mailed on or after the 20th of each month and will be due by the 5th of the following month. If you live South of Cherry/Fairview your bill will be mailed on or after the 5th of each month and be due by the 20th of that month.

**Q:** Why do I mail my payment to Caldwell?

**A:** We use a lockbox system in Caldwell because it results in a substantial cost savings for all Citizens of Meridian. This is the case for most entities that handle a large volume of payment transactions. For example, Idaho Power has switched to a lockbox system which means that you contract with a company that does nothing but process payments for several companies using specialized electronic equipment. The economy of scale means that they can process faster for much less cost than we can. The Finance Department had previously done extensive research to determine which option (in house or outsource) was most cost effective and efficient way to process payments (checks and electronic payments); print and mail of the billings and delinquent notices; online customer access management; etc. While sending items to Caldwell for processing may not appear to some as the best possible solution; they really do a lot more than just process payments. We feel very fortunate that we were able to outsource to a local vendor here in the Valley rather than an out of state agency.

Please note that any change is email accounts without updating this online registration will result in your monthly bills NOT being received. This selection of e-statements will STOP hard copy statements being mailed to you.

Q: Why doesn’t the City of Meridian offer level pay like Idaho Power or Intermountain Gas?

A: The City of Meridian does not currently offer an official level pay program due to a billing element that does not exist within other types of utilities. The water, sewer, and trash accounts with City of Meridian are tied to a specific property and are the obligation of the property owner. For properties that are not owner occupied and a third party billing is requested; we can accommodate that request. With this third party billing, we allow the tenant to receive the bill during their tenancy. It is the expectation that the person receiving the billing will be making the appropriate payments; however when that does not happen, the debt remains on the property for the owner to resolve. Offering level pay to our customers could potentially increase the amount of debt left behind by tenants utilizing the third party billing option. The City of Meridian does not wish to be in a position to treat our citizens differently just based on property ownership status. Until we can develop a program that would protect the City of Meridian, property owners and be able to treat all customers equally we are unable to initiate a level pay program. Payment arrangements can be requested as needed and are reviewed and/or approved on a case by case basis.
